

Platform 2024 Published

On June 1, 2024 county party delegates from all but two counties in Wyoming convened in Casper. One of the pieces of work they did was approve the latest WDP Platform. The raw materials for this document are planks from county party platforms and the crafting is done by committee members from all around the state. Ultimately, the final shaping and approval is done by the convention of Democrats at the State Convention. You can read the entire document [HERE](#).

Some other work done that day was the passing of two Resolutions. Important documents you should probably take a look at. Find them [HERE](#).
